

MANAGEMENT'S DISCUSSION AND ANALYSIS

Second Quarter 2026

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following management's discussion and analysis ("**MD&A**") of financial condition and results of operations for Whitecap Resources Inc. (the "**Company**" or "**Whitecap**") is dated July 28, 2026 and should be read in conjunction with the Company's unaudited interim consolidated financial statements and related notes for the period ended June 30, 2026, as well as the audited annual consolidated financial statements and related notes for the year ended December 31, 2025. The unaudited interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("**IFRS Accounting Standards**"), specifically International Accounting Standard ("**IAS**") 34 'Interim Financial Reporting', in Canadian dollars, except where indicated otherwise. Accounting policies adopted by the Company are set out in the notes to the audited annual consolidated financial statements for the year ended December 31, 2025 and Note 3 of the unaudited interim consolidated financial statements for the period ended June 30, 2026. The unaudited interim consolidated financial statements of Whitecap have been prepared by management and approved by the Company's Board of Directors. This MD&A should also be read in conjunction with Whitecap's disclosures under "Advisories" below. Additional information respecting Whitecap is available on the SEDAR+ website (sedarplus.ca) and on our website (wcap.ca).

DESCRIPTION OF BUSINESS

Whitecap is a Calgary based oil and gas company that is engaged in the business of acquiring, developing and holding interests in petroleum and natural gas properties and assets. Whitecap's common shares are traded on the Toronto Stock Exchange ("**TSX**") under the symbol WCP.

2025 STRATEGIC COMBINATION AND DISPOSITIONS

Veren Inc. Business Combination

On May 12, 2025, the Company closed the Veren Inc. ("**Veren**") business combination. Veren shareholders received 1.05 common shares of Whitecap for each Veren common share held. Whitecap issued approximately 643.0 million common shares in connection with the business combination. Refer to Note 6(i) "Acquisitions - Veren Inc. Business Combination" to the Company's unaudited interim consolidated financial statements for the period ended June 30, 2026 for additional information on the business combination.

Non-strategic Asset Dispositions

On June 30, 2025, the Company closed the disposition of certain non-strategic assets for total cash consideration of \$263.7 million. The non-strategic assets disposed of included assets in southwest Saskatchewan and a working interest in a natural gas facility in the Kaybob region.

MANAGEMENT'S DISCUSSION AND ANALYSIS

2026 SECOND QUARTER FINANCIAL AND OPERATIONAL RESULTS

Production

Whitecap's average production volumes and commodity splits were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Crude oil and condensate (bbls/d) ⁽¹⁾	200,725	159,670	200,955	128,328
NGLs (bbls/d) ⁽¹⁾	38,358	27,499	39,632	23,420
Natural gas (Mcf/d) ⁽¹⁾	898,864	633,511	897,367	506,817
Total (boe/d) ⁽²⁾	388,894	292,754	390,148	236,218

⁽¹⁾ "Crude oil and condensate" refers to light and medium crude oil, tight oil, condensate and pentane combined. "Natural gas liquids" ("NGLs") refers to ethane, propane, and butane combined. "Natural gas" refers to conventional natural gas and shale gas combined. The comparative period has been updated to reflect current period presentation. For further breakdown of crude oil and condensate, and natural gas production volumes refer to the "Product Type Information" section of this MD&A.

⁽²⁾ Disclosure of production on a per boe basis in this MD&A consists of the constituent product types and their respective quantities disclosed in the "Product Type Information" section of this MD&A. Also refer to the "Boe Presentation" section of this MD&A.

Exhibit 1

⁽¹⁾ The comparative period has been revised to reflect current period presentation.

Average production volumes increased 33 percent to 388,894 boe/d in the second quarter of 2026 compared to 292,754 boe/d in the second quarter of 2025. Year to date, average production volumes increased 65 percent to 390,148 boe/d compared to 236,218 boe/d for the same period in 2025. The increases in production in the three and six months ended June 30, 2026 were primarily due to the business combination with Veren on May 12, 2025. The 2026 periods reflect full periods of combined Whitecap and Veren production, compared to only a partial period of combined production in the corresponding 2025 periods following the completion of the acquisition. The production increases were also supported by the Company's ongoing successful drilling program, partially offset by natural production declines.

Crude oil and condensate, and NGLs weighting in the three and six months ended June 30, 2026, decreased to 61 percent and 62 percent, respectively, compared to 64 percent in the three and six months ended June 30, 2025. The decreases are primarily due to increased production from the Company's Unconventional division as a result of the business combination with Veren and the Company's ongoing successful drilling program. The Unconventional division has a higher natural gas weighting than the Company average.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Petroleum and Natural Gas Sales

A breakdown of petroleum and natural gas sales is as follows:

(\$ millions)	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Crude oil and condensate ⁽¹⁾	2,334.7	1,208.2	4,001.6	2,017.5
NGLs ⁽¹⁾	111.6	50.5	230.7	102.0
Natural gas ⁽²⁾	187.1	106.6	443.1	188.0
Petroleum and natural gas revenues	2,633.4	1,365.3	4,675.4	2,307.5
Tariffs	(13.3)	(11.6)	(20.3)	(16.3)
Processing & other income	14.5	12.2	31.7	25.2
Marketing revenues	63.9	80.9	93.2	143.5
Petroleum and natural gas sales	2,698.5	1,446.8	4,780.0	2,459.9

⁽¹⁾ Comparative period revised to reflect current period presentation. Refer to the "Production" section of this MD&A.

⁽²⁾ During the three and six months ended June 30, 2026, natural gas sales included \$24.0 million and \$93.6 million, respectively (\$24.3 million for the three and six months ended June 30, 2025) related to Canadian production sold into U.S. pricing markets through the Company's U.S. subsidiary.

Exhibit 2

⁽¹⁾ The comparative period has been revised to reflect current period presentation. Refer to the "Production" section of this MD&A.

Petroleum and natural gas revenues in the second quarter of 2026 increased 93 percent to \$2,633.4 million from \$1,365.3 million in the second quarter of 2025. The increase of \$1,268.1 million consists of \$819.6 million attributed to higher weighted average realized prices and \$448.5 million attributed to higher production volumes. Year to date, petroleum and natural gas revenues increased 103 percent to \$4,675.4 million from \$2,307.5 million for the same period in 2025. The increase of \$2,367.9 million consists of \$1,503.6 million attributed to higher production volumes and \$864.3 million attributed to higher weighted average realized prices.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Benchmark and Realized Prices

Average benchmark and realized prices were as follows:

	Three months ended June 30, 2026		Six months ended June 30, 2025	
	2026	2025	2026	2025
Average benchmark prices				
WTI (US\$/bbl) ⁽¹⁾	92.79	63.74	82.36	67.58
Exchange rate (US\$/C\$)	1.38	1.38	1.38	1.41
WTI (C\$/bbl)	128.27	88.19	113.46	95.33
MSW Par at Edmonton (\$/bbl) ⁽²⁾	131.72	84.13	112.56	89.72
C5+ Par at Edmonton (\$/bbl) ⁽³⁾	131.42	87.42	114.56	93.53
Fosterton Par at Regina (\$/bbl)	108.96	75.03	94.74	80.21
Midale Par at Cromer (\$/bbl)	130.89	88.42	113.64	93.56
LSB Par at Cromer (\$/bbl) ⁽⁴⁾	127.98	84.92	110.62	90.24
AECO natural gas (\$/Mcf) ⁽⁵⁾	1.63	1.69	1.82	1.92
Chicago natural gas (US\$/MMBtu)	2.47	2.86	3.87	3.43
Average realized prices ⁽⁶⁾				
Crude oil and condensate (\$/bbl) ⁽⁷⁾⁽⁸⁾	127.82	83.15	110.02	86.86
NGLs (\$/bbl) ⁽⁷⁾⁽⁸⁾	31.97	20.18	32.16	24.06
Natural gas (\$/Mcf) ⁽⁷⁾	2.29	1.85	2.73	2.05
Petroleum and natural gas revenues (\$/boe) ⁽⁷⁾	74.41	51.25	66.21	53.97

⁽¹⁾ WTI represents the calendar month average of West Texas Intermediate oil.

⁽²⁾ Mixed Sweet Blend ("MSW").

⁽³⁾ Pentanes plus and condensate ("C5+").

⁽⁴⁾ Light Sour Blend ("LSB").

⁽⁵⁾ AECO represents the AECO 5A Daily Index price.

⁽⁶⁾ Prior to the impact of risk management activities and tariffs.

⁽⁷⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

⁽⁸⁾ Comparative period revised to reflect current period presentation. Refer to the "Production" section of this MD&A.

Exhibit 3

Crude Oil and Condensate Sales by Index
Three Months Ended June 30,

Crude Oil and Condensate Sales by Index
Six Months Ended June 30,

⁽¹⁾ The comparative period has been revised to reflect current period presentation. Refer to the "Production" section of this MD&A.

Whitecap's weighted average realized price prior to the impact of risk management activities and tariffs increased 45 percent to \$74.41 per boe in the second quarter of 2026 compared to \$51.25 per boe in the second quarter of 2025. Year to date, Whitecap's weighted average realized price prior to the impact of risk management activities and tariffs increased 23 percent to \$66.21 per boe compared to \$53.97 per boe for the same period in 2025.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Crude Oil

The WTI price increased 46 percent to US\$92.79 per barrel in the second quarter of 2026 compared to US\$63.74 per barrel in the second quarter of 2025. Year to date, the WTI price increased 22 percent to US\$82.36 per barrel compared to US\$67.58 per barrel for the same period in 2025. The increases are primarily attributable to higher geopolitical risk premiums resulting from the conflict in the Middle East, which led to the temporary closure of the Strait of Hormuz and disrupted global crude oil supply.

Northern Alberta & British Columbia

The Company's realized crude oil and condensate prices in Northern Alberta and British Columbia are based on the MSW par at Edmonton and the C5+ par at Edmonton. The MSW par oil price increased 57 percent to average \$131.72 per barrel in the second quarter of 2026 compared to \$84.13 per barrel in the second quarter of 2025. Year to date, the MSW par oil price increased 25 percent to average \$112.56 per barrel compared to \$89.72 per barrel for the same period in 2025. The increases are primarily driven by higher benchmark WTI prices and a significantly stronger MSW differential, resulting from the conflict in the Middle East.

The C5+ par at Edmonton price increased 50 percent to average \$131.42 per barrel in the second quarter of 2026 compared to \$87.42 per barrel in the second quarter of 2025. Year to date, the C5+ par at Edmonton price increased 22 percent to average \$114.56 per barrel compared to \$93.53 per barrel for the same period in 2025. The increases are primarily driven by higher benchmark WTI prices and the counter seasonal strength of the C5+ differential, resulting from the conflict in the Middle East.

Central Alberta

The Company's realized crude oil prices in Central Alberta are based on the MSW par at Edmonton, discussed above.

Western Saskatchewan

The Company's realized crude oil prices in West Central Saskatchewan are based on the MSW par at Edmonton, discussed above.

The Company's realized crude oil prices in Southwest Saskatchewan are based on the Fosterton par price at Regina. The Fosterton par price increased 45 percent to average \$108.96 per barrel in the second quarter of 2026 compared to \$75.03 per barrel in the second quarter of 2025. Year to date, the Fosterton par price increased 18 percent to average \$94.74 per barrel compared to \$80.21 per barrel for the same period in 2025. The increases are primarily due to the increase in the benchmark price of WTI. Year to date, the increase is marginally offset by the U.S. government's release of crude oil from the Strategic Petroleum Reserve, which added incremental supply to the U.S. Gulf Coast.

Eastern Saskatchewan

The Company's realized crude oil prices in Weyburn are based on the Midale par price at Cromer. The Midale par price increased 48 percent to average \$130.89 per barrel in the second quarter of 2026 compared to \$88.42 per barrel in the second quarter of 2025. Year to date, the Midale par price increased 21 percent to average \$113.64 per barrel compared to \$93.56 per barrel for the same period in 2025. The increases are primarily due to the increase in the benchmark price of WTI.

The Company's realized crude oil prices in South-Central Saskatchewan and Southeast Saskatchewan are based on the LSB par price at Cromer. The LSB oil price increased 51 percent to average \$127.98 per barrel in the second quarter of 2026 compared to \$84.92 per barrel in the second quarter of 2025. Year to date, the LSB oil price increased 23 percent to average \$110.62 per barrel compared to \$90.24 per barrel for the same period in 2025. The increases are primarily due to the increase in the benchmark price of WTI and a stronger LSB differential, resulting from the conflict in the Middle East.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Natural Gas Liquids

The natural gas liquids realized price increased 58 percent to an average of \$31.97 per barrel in the second quarter of 2026 compared to \$20.18 per barrel in the second quarter of 2025. Year to date, the natural gas liquids realized price increased 34 percent to an average of \$32.16 per barrel compared to \$24.06 per barrel for the same period in 2025. The increases are primarily due to a higher weighting of propane and butane sales priced on the Far East Index ("FEI"), combined with significantly higher FEI prices and butane prices linked to WTI, resulting from the conflict in the Middle East.

Natural Gas

The AECO daily spot price decreased four percent to an average of \$1.63 per Mcf in the second quarter of 2026 compared to an average of \$1.69 per Mcf in the second quarter of 2025. Year to date, the AECO daily spot price decreased five percent to an average of \$1.82 per Mcf compared to \$1.92 per Mcf for the same period in 2025. The decreases are primarily attributable to lower demand resulting from Western Canadian Sedimentary Basin export restrictions associated with pipeline maintenance.

The natural gas realized price increased 24 percent to an average of \$2.29 per Mcf in the second quarter of 2026 compared to \$1.85 per Mcf in the second quarter of 2025. Year to date, the natural gas realized price increased 33 percent to an average of \$2.73 per Mcf compared to \$2.05 per Mcf in the same period in 2025. The increases are primarily driven by greater price diversification resulting from higher sales volumes into the U.S. and Eastern Canada markets.

Risk Management

Whitecap maintains an ongoing risk management program to reduce the volatility of cash flows in order to fund capital expenditures and pay cash dividends to shareholders.

The Company incurred a realized loss of \$190.1 million and \$210.6 million on its commodity risk management contracts for the three and six months ended June 30, 2026, respectively.

The unrealized gains and losses are a result of the non-cash change in the mark-to-market values period over period. The significant assumptions made in determining the fair value of financial instruments are disclosed in Note 4 to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026.

	Three months ended June 30,		Six months ended June 30,	
Risk Management Contracts (\$ millions)	2026	2025	2026	2025
Realized gain (loss) on commodity contracts ⁽¹⁾	(190.1)	43.1	(210.6)	56.8
Unrealized gain (loss) on commodity contracts ⁽²⁾	282.9	168.8	(226.2)	137.2
Net gain (loss) on commodity contracts	92.8	211.9	(436.8)	194.0
Realized gain on interest rate contracts ⁽³⁾	-	0.3	-	1.4
Unrealized loss on interest rate contracts ⁽³⁾	-	(0.3)	-	(1.4)
Realized gain (loss) on equity contracts ⁽⁴⁾	-	(0.1)	-	0.5
Unrealized gain (loss) on equity contracts ⁽⁴⁾	-	(2.0)	-	0.7
Net gain (loss) on risk management contracts	92.8	209.8	(436.8)	195.2

⁽¹⁾ For the three and six months ended June 30, 2026, realized gain (loss) on commodity contracts does not include a realized gain of \$0.1 million and a realized loss of \$5.5 million, respectively (realized gain of \$53.8 million for the three and six months ended June 30, 2025, respectively) associated with the settlement of risk management contracts acquired pursuant to the business combination with Veren.

⁽²⁾ For the three and six months ended June 30, 2026, unrealized gain (loss) on commodity contracts includes the change in fair value of the embedded derivative. See "Embedded Derivative" below.

⁽³⁾ The gains (losses) on interest rate risk management contracts are included in interest and financing expenses.

⁽⁴⁾ The gains (losses) on equity risk management contracts are included in stock-based compensation expenses.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Exhibit 4

⁽¹⁾ Includes monthly cash settlements of \$5.5 million paid by Whitecap since December 31, 2025, associated with the settlement of risk management contracts acquired pursuant to the business combination with Veren.

Embedded Derivative

Whitecap has a long-term agreement to deliver 50,000 MMbtu/d of natural gas for a term of 10 years, which delivery is expected to commence in June 2028. Under the terms of the agreement, the Company will deliver natural gas at Alberta's Nova Inventory Transfer point and receive a Dutch Title Transfer Facility ("**TTF**") index price less associated deductions. Whitecap has identified an embedded derivative within this contract as a result of the pricing structure, and the host contract is a natural gas sales agreement with an underlying AECO price.

The Company will have unrealized gains (losses) on the embedded derivative based on the movements in the TTF and AECO price forecasts. For the three and six months ended June 30, 2026, the embedded derivative resulted in an unrealized loss of \$36.3 million and an unrealized gain of \$28.5 million, respectively (three and six months ended June 30, 2025 – nil). At June 30, 2026, the embedded derivative had an asset fair value of \$34.7 million (December 31, 2025 - asset of \$6.2 million). For additional information see Note 5(d) "Embedded Derivative" in the Company's unaudited interim consolidated financial statements for the period ended June 30, 2026.

MANAGEMENT'S DISCUSSION AND ANALYSIS

At June 30, 2026, the following commodity risk management contracts were outstanding with an asset fair market value of \$73.3 million and a liability fair market value of \$113.1 million:

WTI Crude Oil Derivative Contracts

Type	Remaining Term	Volume (bbls/d)	Bought Put Price (C\$/bbl) ⁽¹⁾	Sold Call Price (C\$/bbl) ⁽¹⁾	Swap Price (C\$/bbl) ⁽¹⁾
Swap ⁽²⁾	Jul - Dec 2026	47,000			94.05
Swap	Jan - Jun 2027	15,500			90.69
Swap	Jan - Dec 2027	10,500			93.55
Swap	Jul - Dec 2027	11,000			93.59
Collar	Jul - Dec 2026	16,000	73.44	96.48	
Collar	Jan - Jun 2027	5,000	75.00	96.30	
Collar	Jan - Dec 2027	18,000	70.00	93.59	
Collar	Jul - Dec 2027	2,000	90.00	102.50	

⁽¹⁾ Prices reported are the weighted average prices for the period.

⁽²⁾ 3,000 bbls/d at a weighted average price of \$92.63/bbl are extendable through 2027 at the option of the counterparty through the exercise of a one-time option on December 31, 2026.

AECO Natural Gas Derivative Contracts

Type	Remaining Term	Volume (GJ/d)	Bought Put Price (C\$/GJ) ⁽¹⁾	Sold Call Price (C\$/GJ) ⁽¹⁾	Swap Price (C\$/GJ) ⁽¹⁾
Swap	Jul - Oct 2026	10,000			2.61
Swap	Jul - Dec 2026	50,000			3.35
Swap	Nov 2026 - Mar 2027	5,000			3.37
Swap	Jan - Dec 2027	50,000			2.96
Collar	Jul - Dec 2026	68,500	2.25	3.52	
Collar	Jan - Dec 2027	60,000	2.75	3.25	

⁽¹⁾ Prices reported are the weighted average prices for the period.

NYMEX Natural Gas Derivative Contracts

Type	Remaining Term	Volume (MMBtu/d)	Bought Put Price (US\$/MMBtu) ⁽¹⁾	Sold Call Price (US\$/MMBtu) ⁽¹⁾	Swap Price (US\$/MMBtu) ⁽¹⁾
Swap	Jul - Dec 2026	50,000			3.72
Collar	Jul - Dec 2026	55,000	3.70	4.19	

⁽¹⁾ Prices reported are the weighted average prices for the period.

NYMEX Natural Gas Differential Derivative Contracts

Type	Remaining Term	Volume (MMBtu/d)	Basis	Fixed differential (US\$/MMBtu) ⁽¹⁾
Swap	Jul - Dec 2026	105,000	AECO	(1.46)

⁽¹⁾ Prices reported are the weighted average prices for the period.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Contracts entered into subsequent to June 30, 2026

WTI Crude Oil Derivative Contracts

Type	Remaining Term	Volume (bbls/d)	Swap Price (C\$/bbl) ⁽¹⁾
Swap	Jan - Dec 2027	2,000	97.60
Swap	Jan - Jun 2028	4,000	94.64

⁽¹⁾ Prices reported are the weighted average prices for the period.

Royalties

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Royalties	349.1	185.8	593.6	343.7
As a % of petroleum and natural gas revenues ⁽¹⁾	13.3	13.6	12.7	14.9
\$ per boe ⁽¹⁾	9.86	6.97	8.41	8.04

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

Royalties as a percentage of petroleum and natural gas revenues decreased to 13.3 percent in the second quarter of 2026, compared to 13.6 percent in the second quarter of 2025. Year to date, royalties as a percentage of petroleum and natural gas revenues decreased to 12.7 percent compared to 14.9 percent for the same period in 2025. The decreases in royalties as a percentage of petroleum and natural gas revenues are primarily attributable to lower average royalty rates as a result of increased production in the Unconventional division, which has a lower royalty rate than the Company average. The decreases are partially offset by higher benchmark pricing in the second quarter of 2026.

Whitecap pays royalties to the provincial governments and mineral owners in Alberta, Saskatchewan and British Columbia. Each province has separate royalty regimes which impact Whitecap's overall corporate royalty rate.

Operating Expenses

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Operating expenses	420.3	361.8	843.9	580.5
\$ per boe ⁽¹⁾	11.88	13.58	11.95	13.58

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

Operating expenses per boe in the second quarter of 2026 decreased 13 percent to \$11.88 per boe compared to \$13.58 per boe in the second quarter of 2025. Year to date, operating expenses per boe decreased 12 percent to \$11.95 per boe compared to \$13.58 per boe for the same period in 2025. The decreases are due to increased production from the Unconventional division which has lower operating expenses per boe than the Company average.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Transportation Expenses

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Transportation expenses	125.8	74.6	249.1	112.4
\$ per boe ⁽¹⁾	3.55	2.80	3.53	2.63

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

Transportation expenses per boe in the second quarter of 2026 increased 27 percent to \$3.55 per boe compared to \$2.80 per boe in the second quarter of 2025. Year to date, transportation expenses increased 34 percent to \$3.53 per boe compared to \$2.63 per boe for the same period in 2025. The increases are primarily due to increased production in the Unconventional division, which has higher transportation expenses per boe than the Company average due to its distance from its sales points, which includes sales into the U.S. market. The increase in transportation expenses per boe due to volumes sold to the U.S. market was offset by those volumes receiving a higher realized price compared to those sold in the Canadian market.

Marketing Revenues and Expenses

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Marketing revenues	63.9	80.9	93.2	143.5
\$ per boe ⁽¹⁾	1.81	3.04	1.32	3.36
Marketing expenses	62.1	81.1	90.9	142.1
\$ per boe ⁽¹⁾	1.75	3.04	1.29	3.32

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

Marketing revenues and expenses per boe in the second quarter of 2026 decreased 40 percent and 42 percent respectively, compared to the second quarter of 2025. Year to date, marketing revenues and expenses per boe both decreased 61 percent compared to the same period in 2025. Marketing activities will fluctuate and may occur when there is a sufficiently large variance between crude oil sales stream prices and where there is both sufficient facility and pipeline capacity.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Operating Netbacks

The components of operating netbacks are shown below:

	Three months ended June 30,		Six months ended June 30,	
Operating Netbacks (\$ millions)	2026	2025	2026	2025
Petroleum and natural gas revenues	2,633.4	1,365.3	4,675.4	2,307.5
Tariffs	(13.3)	(11.6)	(20.3)	(16.3)
Processing & other income	14.5	12.2	31.7	25.2
Marketing revenues	63.9	80.9	93.2	143.5
Petroleum and natural gas sales	2,698.5	1,446.8	4,780.0	2,459.9
Realized gain (loss) on commodity contracts ⁽¹⁾	(190.1)	43.1	(210.6)	56.8
Royalties	(349.1)	(185.8)	(593.6)	(343.7)
Operating expenses	(420.3)	(361.8)	(843.9)	(580.5)
Transportation expenses	(125.8)	(74.6)	(249.1)	(112.4)
Marketing expenses	(62.1)	(81.1)	(90.9)	(142.1)
Operating netbacks ⁽²⁾	1,551.1	786.6	2,791.9	1,338.0

⁽¹⁾ For the three and six months ended June 30, 2026, realized gain (loss) on commodity contracts does not include a realized gain of \$0.1 million and a realized loss of \$5.5 million, respectively (realized gain of \$53.8 million for the three and six months ended June 30, 2025, respectively) associated with the settlement of risk management contracts acquired pursuant to the business combination with Veren.

⁽²⁾ "Operating netback" is a non-GAAP financial measure determined by adding marketing revenues and processing & other income, deducting realized losses on commodity risk management contracts or adding realized gains on commodity risk management contracts and deducting tariffs, royalties, operating expenses, transportation expenses and marketing expenses from petroleum and natural gas revenues. The most directly comparable financial measure to operating netback disclosed in the primary financial statements is petroleum and natural gas sales. Operating netback is a measure used in operational and capital allocation decisions. Operating netback is not a standardized financial measure under IFRS Accounting Standards and, therefore, may not be comparable with the calculation of similar financial measures disclosed by other entities.

The components of operating netbacks per boe are shown below:

	Three months ended June 30,		Six months ended June 30,	
Operating Netbacks (\$ per boe)	2026	2025	2026	2025
Petroleum and natural gas revenues ⁽¹⁾	74.41	51.25	66.21	53.97
Tariffs ⁽¹⁾	(0.38)	(0.44)	(0.29)	(0.38)
Processing & other income ⁽¹⁾	0.41	0.46	0.45	0.59
Marketing revenues ⁽¹⁾	1.81	3.04	1.32	3.36
Petroleum and natural gas sales ⁽¹⁾	76.25	54.31	67.69	57.54
Realized gain (loss) on commodity contracts ⁽¹⁾⁽²⁾	(5.37)	1.62	(2.98)	1.33
Royalties ⁽¹⁾	(9.86)	(6.97)	(8.41)	(8.04)
Operating expenses ⁽¹⁾	(11.88)	(13.58)	(11.95)	(13.58)
Transportation expenses ⁽¹⁾	(3.55)	(2.80)	(3.53)	(2.63)
Marketing expenses ⁽¹⁾	(1.75)	(3.04)	(1.29)	(3.32)
Operating netbacks ⁽³⁾	43.84	29.54	39.53	31.30

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

⁽²⁾ For the three and six months ended June 30, 2026, realized gain (loss) on commodity contracts per boe does not include a realized gain of nil per boe and a realized loss of \$0.08 per boe, respectively (realized gain of \$2.02 per boe and \$1.26 per boe for the three and six months ended June 30, 2025, respectively) associated with the settlement of risk management contracts acquired pursuant to the business combination with Veren.

⁽³⁾ "Operating netback per boe" is a non-GAAP ratio calculated by dividing operating netbacks by the total production for the period. Operating netback is a non-GAAP financial measure component of operating netback per boe. Operating netback per boe is not a standardized financial measure under IFRS Accounting Standards and, therefore, may not be comparable with the calculation of similar financial measures disclosed by other entities. Presenting operating netback on a per boe basis allows management to better analyze performance against prior periods on a comparable basis.

MANAGEMENT'S DISCUSSION AND ANALYSIS

General and Administrative Expenses

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Gross G&A costs	52.6	38.5	116.6	70.8
Recoveries	(9.7)	(7.2)	(20.7)	(14.7)
Capitalized G&A	(5.7)	(4.6)	(21.7)	(13.3)
G&A expenses	37.2	26.7	74.2	42.8
\$ per boe ⁽¹⁾	1.05	1.00	1.05	1.00

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

General and administrative ("G&A") expenses per boe in the second quarter of 2026 increased five percent to \$1.05 per boe compared to \$1.00 per boe in the second quarter of 2025. Year to date, G&A expenses per boe increased five percent to \$1.05 per boe compared to \$1.00 per boe in the same period in 2025. The increases are primarily due to additional personnel and office related expenses as a result of the business combination with Veren in the second quarter of 2025 and the Company's growth year over year.

Stock-based Compensation Expense

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Stock-based compensation	16.9	17.6	73.2	40.2
Realized (gain) loss on equity contracts	-	0.1	-	(0.5)
Unrealized (gain) loss on equity contracts	-	2.0	-	(0.7)
Capitalized stock-based compensation	(2.8)	(3.2)	(15.2)	(8.0)
Stock-based compensation expenses	14.1	16.5	58.0	31.0
\$ per boe ⁽¹⁾	0.40	0.62	0.82	0.73

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

In the three and six months ended June 30, 2026, the Company recorded stock-based compensation of \$16.9 million and \$73.2 million, respectively, compared to \$17.6 million and \$40.2 million in the same periods in 2025, respectively.

Stock-based compensation and capitalized stock-based compensation for the second quarter of 2026 remained consistent compared to the second quarter of 2025. The increase in stock-based compensation and capitalized stock-based compensation for the six months ended June 30, 2026 compared to the same period in 2025 is due to a significant increase in the Company's share price in the first half of 2026 compared to a share price decrease in the first half of 2025.

Stock-based compensation will fluctuate with changes to the expected payout multipliers associated with the performance awards, vesting of existing awards, additional grants of awards under the Award Incentive Plan and Directors' Deferred Share Unit Plan, as well as changes in fair value for awards that are accounted for as cash-settled.

No equity contracts were outstanding in the three and six months ended June 30, 2026, resulting in no realized or unrealized gain or loss on equity contracts in the three and six months ended June 30, 2026.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Equity Based Compensation Plans

The Award Incentive Plan has time-based awards and performance awards which may be granted to officers and employees of the Company and other service providers. At June 30, 2026, the maximum number of common shares issuable under the plan shall not at any time exceed 4.0 percent of the total common shares outstanding (less the aggregate number of common shares reserved for issuance from time to time pursuant to all other security based compensation arrangements of the Company). Vesting is determined by the Company's Board of Directors. Time-based awards and performance awards issued to employees of the Company (and historically issued to independent directors) have vesting periods ranging from one to three years. A copy of the Company's Award Incentive Plan may be accessed through the SEDAR+ website (sedarplus.ca).

Each time-based award may, in the Company's sole discretion, entitle the holder to be issued the number of common shares designated in the time-based award plus dividend equivalents or payment in cash. Decisions regarding settlement method for key management personnel awards and other personnel awards are mutually exclusive. Awards granted to key management personnel are currently accounted for as cash-settled, and awards granted to other personnel are currently accounted for as equity-settled. Performance awards are also subject to a performance multiplier. This multiplier, ranging from zero to two, will be applied on vesting and is dependent on the performance of the Company relative to predefined corporate performance measures set by the Board of Directors for the associated period.

Based on the terms of the Award Incentive Plan, the fair value of share awards is equal to the underlying share price on the grant date. The fair value of awards that are accounted for as cash-settled transactions are subsequently adjusted to the underlying share price at each period end. Performance awards are also adjusted by an estimated payout multiplier. The amount of compensation expense is reduced by an estimated forfeiture rate on the grant date, which has been estimated at four percent of outstanding awards. The forfeiture rate is adjusted to reflect the actual number of shares that vest. The resulting stock-based compensation expense is recognized on a straight-line basis over the vesting period, with a corresponding increase to contributed surplus in the case of awards accounted for as equity-settled, or share awards liability in the case of awards accounted for as cash-settled. Upon the vesting of the awards that are accounted for as equity-settled, the associated amount in contributed surplus is recorded as an increase to share capital. At June 30, 2026, the Company had 8.3 million awards outstanding under the Award Incentive Plan.

Prior to January 1, 2025, independent directors received time-based awards as long-term compensation. Effective January 1, 2025, independent directors no longer participate in the Award Incentive Plan and instead receive deferred share units ("**DSUs**"). DSUs vest immediately on grant but are not redeemable until the holder ceases to be a director. DSUs are accounted for as cash-settled transactions. The estimated fair value of the DSUs is equal to the underlying share price on grant date. The fair value of the DSUs is subsequently adjusted to the underlying share price at each period end. The resulting stock-based compensation expense is recognized with a corresponding increase to share awards liability. At June 30, 2026, the Company had 0.2 million DSUs outstanding.

In connection with the Veren business combination that closed in the second quarter of 2025, the Company has assumed all outstanding Veren share awards that were not accelerated at closing, which includes employee share value awards, performance share units, and restricted share awards. The Veren share awards that were not accelerated continue to be governed by and are subject to the terms and conditions of the corresponding legacy Veren plans, which were assumed by Whitecap. No additional share awards will be granted under the legacy Veren plans. At June 30, 2026, 1.2 million awards were outstanding under the legacy Veren plans.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Interest and Financing Expenses

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Interest	42.7	33.2	88.9	45.4
Realized gain on interest rate contracts	-	(0.3)	-	(1.4)
Unrealized loss on interest rate contracts	-	0.3	-	1.4
Interest and financing expenses	42.7	33.2	88.9	45.4
\$ per boe ⁽¹⁾	1.21	1.25	1.26	1.06

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

The increase in interest in the three and six months ended June 30, 2026 compared to the same periods in 2025 is primarily attributable to higher average debt levels as a result of the business combination with Veren in the second quarter of 2025.

No interest rate contracts were outstanding in the three and six months ended June 30, 2026 resulting in no realized or unrealized gain or loss on interest rate contracts in the three and six months ended June 30, 2026.

Depletion, Depreciation and Amortization

	Three months ended June 30,		Six months ended June 30,	
(\$ millions, except per boe amounts)	2026	2025	2026	2025
Depletion, depreciation and amortization	549.7	400.5	1,098.8	646.1
\$ per boe ⁽¹⁾	15.53	15.03	15.56	15.11

⁽¹⁾ Supplementary financial measure. Refer to the "Supplementary Financial Measures" section of this MD&A for more information.

Depletion, depreciation and amortization ("DD&A") per boe for the three and six months ended June 30, 2026 remained consistent compared to the same periods in 2025.

DD&A per boe will fluctuate from one period to the next depending on the amount and type of capital spending, changes in decommissioning asset, the recognition or reversal of impairments, the amount of reserve changes and production volumes. The depletion rates are calculated on proved and probable oil and natural gas reserves, taking into account the future development costs to produce the reserves.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Income Taxes

	Three months ended June 30,		Six months ended June 30,	
(\$ millions)	2026	2025	2026	2025
Current income tax expense (recovery)	92.0	(7.4)	165.7	49.0
Deferred income tax expense	193.9	110.0	128.7	107.8

Current Income Tax

In the second quarter of 2026, the Company recognized current income tax expense of \$92.0 million compared to current income tax recovery of \$7.4 million in the second quarter of 2025. Year to date, the Company recognized current income tax expense of \$165.7 million compared to current income tax expense of \$49.0 million for the same period in 2025. The increases in current income tax expense are primarily due to higher taxable income.

Deferred Income Tax

In the second quarter of 2026, the Company recognized deferred income tax expense of \$193.9 million compared to deferred income tax expense of \$110.0 million in the second quarter of 2025. The increase in deferred income tax expense is primarily due to higher allowable tax pool deductions and higher unrealized gains on commodity contracts recognized in the period. Year to date, the Company recognized deferred income tax expense of \$128.7 million compared to deferred income tax expense of \$107.8 million for the same period in 2025. The increase in deferred income tax expense is primarily due to higher allowable tax pool deductions partially offset by a deferred income tax recovery from unrealized losses on commodity contracts recognized in the period.

Reassessments

In 2023, Whitecap received reassessments from the Canada Revenue Agency ("**CRA**") and the Alberta Tax and Revenue Administration ("**ATRA**") for a former subsidiary that deny non-capital loss deductions relevant to the calculation of income taxes for the years 2018 and 2019. In 2023, Whitecap filed a notice of objection for each CRA and ATRA reassessment and subsequently filed an appeal directly to the Tax Court of Canada. There has been no change in the status of these reassessments since the appeal to the Tax Court of Canada was filed. Whitecap remains confident in the appropriateness of its tax filing position and intends to vigorously defend it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Net Income and Other Comprehensive Income

For the three and six months ended June 30, 2026, the Company recognized net income of \$889.5 million and \$911.8 million, respectively, compared to net income of \$310.6 million and \$473.2 million for the same periods in 2025. The following changes impacted net income:

Exhibit 5

The factors causing these changes are discussed in the preceding sections.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Cash Flow from Operating Activities, Funds Flow and Free Funds Flow

The following table reconciles cash flow from operating activities to funds flow and free funds flow:

(\$ millions, except per share amounts)	Three months ended		Six months ended	
	2026	June 30, 2025	2026	June 30, 2025
Cash flow from operating activities	1,530.7	668.7	2,666.0	963.8
Net change in non-cash working capital items	(176.1)	44.1	(286.1)	195.3
Funds flow ⁽¹⁾	1,354.6	712.8	2,379.9	1,159.1
Expenditures on PP&E	430.1	408.8	1,106.4	806.9
Free funds flow ⁽²⁾	924.5	304.0	1,273.5	352.2
Dividends declared	221.4	185.4	442.7	292.6
Share repurchases	-	5.4	-	5.4
Funds flow per share, basic ⁽¹⁾	1.11	0.76	1.96	1.51
Funds flow per share, diluted ⁽¹⁾	1.11	0.75	1.95	1.50
Dividends declared per share	0.18	0.18	0.36	0.36

⁽¹⁾ "Funds flow", "funds flow per share, basic" and "funds flow per share, diluted" are capital management measures and are key measures of operating performance as they demonstrate Whitecap's ability to generate the cash necessary to pay dividends, repay debt, make capital investments, and/or to repurchase common shares under the Company's normal course issuer bid ("NCIB"). Management believes that by excluding the temporary impact of changes in non-cash operating working capital, funds flow, funds flow per share, basic and funds flow per share, diluted provide useful measures of Whitecap's ability to generate cash that are not subject to short-term movements in non-cash operating working capital. Whitecap reports funds flow in total and on a per share basis (basic and diluted), which is calculated by dividing funds flow by the weighted average number of shares (basic and diluted) outstanding for the relevant period. See Note 5(f)(ii) "Capital Management – Funds Flow" in the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026 for a detailed calculation.

⁽²⁾ "Free funds flow" is a non-GAAP financial measure calculated as funds flow less expenditures on property, plant and equipment ("PP&E"). Management believes that free funds flow provides a useful measure of Whitecap's ability to increase returns to shareholders and to grow the Company's business. Free funds flow is not a standardized financial measure under IFRS Accounting Standards and, therefore, may not be comparable with the calculation of similar financial measures disclosed by other entities. The most directly comparable financial measure to free funds flow disclosed in the primary financial statements is cash flow from operating activities.

Dividends are only declared once they are approved by the Company's Board of Directors. The Board of Directors reviews Whitecap's dividend payment on a monthly basis.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Cash flow from operating activities for the three and six months ended June 30, 2026 was \$1,530.7 million and \$2,666.0 million, respectively, compared to \$668.7 million and \$963.8 million for the same periods in 2025. The following changes impacted cash flow from operating activities:

Exhibit 6

MANAGEMENT'S DISCUSSION AND ANALYSIS

Funds flow for the second quarter of 2026 was \$1,354.6 million compared to \$712.8 million in the second quarter of 2025. Year to date, funds flow was \$2,379.9 million compared to \$1,159.1 million for the same period in 2025. The increases are primarily attributable to higher production volumes and higher commodity prices compared to the same periods in 2025.

Free funds flow for the second quarter of 2026 was \$924.5 million compared to \$304.0 million in the second quarter of 2025. Year to date, free funds flow was \$1,273.5 million compared to \$352.2 million for the same period in 2025. The increases are primarily attributable to higher funds flow, partially offset by higher capital expenditures compared to the same periods in 2025.

Expenditures on Property, Plant and Equipment

(\$ millions)	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Land and geological	2.0	1.1	3.9	6.7
Drilling and completions	371.9	340.3	942.4	658.8
Investment in facilities	49.4	60.5	136.6	124.3
Capitalized administration	5.7	4.6	21.7	13.3
Corporate and other assets	1.1	2.3	1.8	3.8
Expenditures on PP&E	430.1	408.8	1,106.4	806.9

For the second quarter of 2026, expenditures on PP&E totaled \$430.1 million with 98 percent spent on drilling, completions and facilities. Year to date, expenditures on PP&E totaled \$1,106.4 million with 98 percent spent on drilling, completions and facilities.

For the three and six months ended June 30, 2026, Whitecap's drilling activity was as follows:

Wells	Three months ended June 30, 2026		Six months ended June 30, 2026	
	Gross	Net	Gross	Net
Conventional division	23	16.8	77	64.1
Unconventional division	24	24.0	55	55.0
Total	47	40.8	132	119.1

For the three and six months ended June 30, 2025, Whitecap's drilling activity was as follows:

Wells	Three months ended June 30, 2025		Six months ended June 30, 2025	
	Gross	Net	Gross	Net
Conventional division	10	7.7	89	76.7
Unconventional division	26	26.0	33	33.0
Total	36	33.7	122	109.7

MANAGEMENT'S DISCUSSION AND ANALYSIS

Decommissioning Liability

At June 30, 2026, the Company's decommissioning liability balance was \$1.5 billion (\$1.4 billion at December 31, 2025) for future abandonment and reclamation of the Company's properties. The increase is primarily due to a decrease in the risk-free rate from 3.85 percent at December 31, 2025 to 3.77 percent at June 30, 2026. Estimates are based on both operational knowledge of the properties and updated industry guidance provided by the Alberta Energy Regulator, the Saskatchewan Ministry of the Economy and the BC Energy Regulator. The estimates are reviewed quarterly and adjusted as new information regarding the liability is determined.

Exhibit 7

MANAGEMENT'S DISCUSSION AND ANALYSIS

Capital Resources and Liquidity

On March 20, 2026, the Company amended its existing unsecured covenant-based credit facility, reducing the facility to \$2.5 billion from \$3.0 billion. At June 30, 2026, the Company had a total credit capacity of \$4.5 billion which consisted of the \$2.5 billion credit facility, \$1.7 billion in investment grade senior notes, \$195.0 million in senior notes and a \$60.0 million letter of credit facility.

Credit Facility

At June 30, 2026, the Company had a \$2.5 billion unsecured covenant-based credit facility with a syndicate of banks. The credit facility consists of a \$2.35 billion revolving syndicated facility and a \$150.0 million revolving operating facility, with a maturity date of September 19, 2030. At June 30, 2026, the amount drawn on the credit facilities was \$0.2 billion. Once per calendar year, the Company may request an extension of the then current maturity date, subject to approval by the banks. Following the granting of such extension, the term to maturity of the credit facilities shall not exceed five years. The credit facility provides that advances may be made by way of direct advances, Canadian Overnight Repo Rate Average ("**CORRA**") loans or letters of credit/guarantees. The credit facility bears interest at the bank's prime lending or adjusted CORRA rates plus applicable margins. The applicable margin charged by the bank is dependent upon the Company's credit rating. The CORRA loans bear interest at the applicable adjusted CORRA rate plus an explicit margin based upon the Company's credit rating.

The following table lists Whitecap's financial covenant on its credit facility as at June 30, 2026:

Covenant Description	June 30, 2026
Debt to capitalization ⁽¹⁾	Maximum Ratio 0.60 0.16

⁽¹⁾ The debt used in the covenant calculation includes bank indebtedness, investment grade senior notes, senior notes, letters of credit and dividends declared.

At June 30, 2026, the Company was compliant with all covenants provided for in the credit agreement.

The Company has a \$60.0 million unsecured demand letter of credit facility. The Company had letters of credit in the amount of \$22.3 million outstanding at June 30, 2026.

Senior Notes

At June 30, 2026, the Company had outstanding \$195.0 million of senior notes. The notes rank equally with Whitecap's obligations under its credit facility.

The term, rate, and principal of the Company's outstanding senior notes are detailed below:

(\$ millions)

Issue Date	Maturity Date	Coupon Rate	Principal
December 20, 2017	December 20, 2026	3.900%	195.0
Balance at June 30, 2026			195.0

The senior notes are subject to the same debt to capitalization ratio financial covenant described under "Credit Facility" above. The senior notes are also subject to the following financial covenant as at June 30, 2026:

Covenant Description	June 30, 2026
Debt to EBITDA ^{(1) (2)}	Maximum Ratio 4.00 0.47

⁽¹⁾ The earnings before interest, taxes, depreciation, and amortization ("**EBITDA**") used in the covenant calculation is adjusted for non-cash items, transaction costs and extraordinary and non-recurring items.

⁽²⁾ The debt used in the covenant calculation includes bank indebtedness, investment grade senior notes, senior notes, letters of credit and dividends declared.

At June 30, 2026, the Company was compliant with all covenants provided for in the note agreement.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Investment Grade Senior Notes

At June 30, 2026, the Company had outstanding an aggregate of \$1.7 billion of investment grade senior notes. The notes rank equally with Whitecap's obligations under its credit facility.

The term, rate, and principal of the Company's outstanding investment grade senior notes are detailed below:

(\$ millions)

Issue Date	Maturity Date	Coupon Rate	Principal
June 19, 2025	June 19, 2028	3.761%	300.0
June 21, 2024 ⁽¹⁾	June 21, 2029	4.968%	550.0
November 1, 2024	November 1, 2029	4.382%	400.0
June 21, 2024 ⁽¹⁾	June 21, 2034	5.503%	450.0
Balance at June 30, 2026			1,700.0

⁽¹⁾ Investment grade senior notes assumed pursuant to the business combination with Veren.

There are no financial covenants on the investment grade senior notes.

Equity

On May 20, 2026, the Company announced the approval of its renewed NCIB by the TSX (the "**2026 NCIB**"). The 2026 NCIB allows the Company to purchase up to 120,706,244 common shares over a period of twelve months commencing on May 25, 2026.

On May 15, 2025, the Company announced the approval of its renewed NCIB by the TSX (the "**2025 NCIB**"). The 2025 NCIB allowed the Company to purchase up to 122,135,462 common shares over a period of twelve months commencing on May 23, 2025.

On May 15, 2024, the Company announced the approval of its renewed NCIB by the TSX (the "**2024 NCIB**"). The 2024 NCIB allowed the Company to purchase up to 59,110,613 common shares over a period of twelve months commencing on May 23, 2024.

Purchases are made on the open market through the TSX or alternative platforms at the market price of such common shares. All common shares purchased under the NCIB are cancelled. The total cost paid, including commissions and fees, is first charged to share capital to the extent of the average carrying value of Whitecap's common shares and the excess is charged to retained earnings.

There were no share repurchases for the three and six months ended June 30, 2026.

The Company is authorized to issue an unlimited number of common shares without nominal or par value. The Company is also authorized to issue an unlimited number of preferred shares without nominal or par value provided that, if the authorized preferred shares are to be assigned voting or conversion rights, the number of preferred shares to be issued may not exceed twenty percent of the number of issued and outstanding common shares at the time of issuance of any such preferred shares. At July 28, 2026, there were 1,215.9 million common shares and 11.2 million share awards outstanding.

Liquidity

The Company generally relies on funds flow and its credit facility to fund its capital requirements, dividend payments and provide liquidity. From time to time, the Company accesses capital markets to meet its additional financing needs for acquisitions. Future liquidity depends primarily on funds flow, existing credit facilities and the ability to access debt and equity markets. All repayments on the revolving production and operating facilities are due at the term maturity date. At June 30, 2026, the Company had \$2.3 billion of unutilized credit to cover any working capital deficiencies. The Company believes that available credit facilities, combined with anticipated funds flow, will be sufficient to satisfy Whitecap's 2026 development capital program and dividend payments for the remainder of the 2026 fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Contractual Obligations

Whitecap has contractual obligations in the normal course of business which may include purchase of assets and services, operating agreements, transportation commitments, sales commitments, royalty obligations, lease rental obligations, employee agreements and debt. These obligations are of a recurring, consistent nature and impact Whitecap's cash flows in an ongoing manner.

The Company is committed to future payments under the following agreements:

(\$ millions)	< 1 year	2 - 3 years	4 - 5 years	> 5 years	Total
Transportation agreements	448.6	848.0	693.6	1,525.0	3,515.2
Long-term debt ⁽¹⁾	279.5	449.4	1,005.4	696.2	2,430.5
Gas processing commitments	159.7	302.6	286.0	1,051.3	1,799.6
Lease liabilities ⁽²⁾	112.6	207.2	180.9	530.1	1,030.8
CO ₂ purchase commitments	21.4	45.4	47.2	87.3	201.3
Operating commitments ⁽³⁾	40.8	56.9	22.5	4.5	124.7
Total	1,062.6	1,909.5	2,235.6	3,894.4	9,102.1

⁽¹⁾ This amount includes the notional principal and interest payments on the investment grade senior notes and senior notes as well as the notional principal payments on the revolving credit facility.

⁽²⁾ These amounts include the notional principal and interest payments.

⁽³⁾ Included in operating commitments are recoveries of operating costs totaling \$12.7 million on subleased office space.

Changes in Accounting Policies Including Initial Adoption

There were no changes that had a material effect on the reported income or net assets of the Company.

Standards Issued but not yet Effective

Presentation and Disclosure in Financial Statements

IFRS 18 'Presentation and Disclosure in Financial Statements' ("IFRS 18") was issued in April 2024 by the International Accounting Standards Board and replaces IAS 1 'Presentation of Financial Statements'. The standard introduces a new defined structure for the Statement of Comprehensive Income with related disclosure requirements. Key changes to the Statement of Comprehensive Income and Notes to the Consolidated Financial Statements include:

- classification of income and expenses into defined categories with mandatory new subtotals;
- disclosure of management-defined performance measures in the notes to the financial statements; and
- enhanced aggregation and disaggregation requirements to improve the effectiveness of how information is communicated.

IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is required to be applied retrospectively. Early adoption is permitted. The Company is currently assessing the extent of the impact of IFRS 18 on its consolidated financial statements. IFRS 18 results in a consequential amendment to IAS 7 'Statement of Cash Flows' which will result in a material change to the presentation of the Company's consolidated statement of cash flows, as interest and financing expense currently classified within operating activities will be presented within financing activities. The adoption of IFRS 18 is not expected to have an impact on the Company's financial position, net earnings, or total cash flows. The Company will continue its assessment of the presentation and disclosure impacts of IFRS 18, including finalizing the identification of management-defined performance measures and implementation of the related presentation and disclosure requirements.

Off Balance Sheet Arrangements

The Company does not have any special purpose entities nor is it party to any arrangements that would be excluded from the balance sheet other than commitments disclosed in Note 17 "Commitments" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Critical Accounting Estimates

Whitecap's financial and operating results may incorporate certain estimates including:

- estimated revenues, royalties and operating expenses on production as at a specific reporting date but for which actual revenues and expenses have not yet been received;
- estimated expenditures on PP&E on projects that are in progress;
- estimated depletion, depreciation, amortization and accretion that are based on estimates of oil and gas reserves that the Company expects to recover in the future, commodity prices, estimated future salvage values and estimated future capital costs;
 - estimated fair values of derivative contracts, including embedded derivatives, that are subject to fluctuation depending upon the underlying commodity prices, foreign exchange rates and interest rates;
 - estimated value of decommissioning liabilities that are dependent upon estimates of future costs, timing of expenditures and the risk-free rate;
 - estimated income and other tax liabilities requiring interpretation of complex laws and regulations. All tax filings are subject to audit and potential reassessment after the lapse of considerable time;
 - estimated stock-based compensation expense using the Black-Scholes option pricing model;
 - estimated fair value of business combinations and goodwill requires management to make assumptions and estimates about future events. The assumptions and estimates with respect to determining the fair value of PP&E and exploration and evaluation assets acquired generally require the most judgment and include estimates of reserves acquired, forecast benchmark commodity prices, future costs and discount rates; and
- estimated recoverable amounts are based on estimated proved plus probable oil and natural gas reserves, production rates, benchmark commodity prices, future costs, discount rates and other relevant assumptions, used in impairment (reversal) calculations and the assessment of appropriate accounting treatment of sale of royalty interests.

For more details regarding the Company's use of estimates and judgements, refer to Note 2(d) "Use of Estimates and Judgements" to the Company's audited annual consolidated financial statements for the year ended December 31, 2025.

The Company has hired individuals and consultants who have the skills required to make such estimates and ensures that individuals or departments with the most knowledge of the activity are responsible for the estimates. Furthermore, past estimates are reviewed and compared to actual results, and actual results are compared to budgets in order to make more informed decisions on future estimates.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Business Risks

Whitecap's exploration and production activities are concentrated in the Western Canadian Sedimentary Basin, where activity is highly competitive and includes a variety of different-sized companies. Whitecap is subject to a number of risks that are also common to other organizations involved in the oil and gas industry. Such risks include finding and developing oil and gas reserves at economic costs, estimating amounts of recoverable reserves, production of oil and gas in commercial quantities, marketability of oil and gas produced, fluctuations in commodity prices, stock market volatility, debt service which may limit timing or amount of dividends as well as market price of shares, financial and liquidity risks and environmental and safety risks.

In order to reduce exploration risk, Whitecap employs or contracts highly qualified and motivated professionals who have demonstrated the ability to generate quality proprietary geological and geophysical prospects. Whitecap has retained independent petroleum consultants that assist the Company in evaluating recoverable amounts of oil and gas reserves. Values of recoverable reserves are based on a number of variable factors and assumptions such as commodity prices, projected production, future production costs and government regulations. Such estimates will vary from actual results and such variations may be material.

The Company mitigates its risk related to producing hydrocarbons through the utilization of current technology and information systems. In addition, Whitecap strives to operate the majority of its prospects, thereby maintaining operational control. When the Company does not operate, it relies on its partners in jointly owned properties to maintain operational control.

Whitecap is exposed to market risk to the extent that the demand for oil and gas produced by the Company exists within Canada, the U.S. and international markets. External factors beyond the Company's control may affect the marketability of oil and gas produced. These factors include commodity prices and variations in the Canada–U.S. currency exchange rate which, in turn, responds to economic and political circumstances throughout the world. Oil prices are affected by worldwide supply and demand fundamentals while natural gas prices are affected primarily by North American supply and demand fundamentals. Whitecap uses futures and options contracts to mitigate its exposure to the potential adverse impact of commodity price volatility. The primary objective of the risk management program is to provide a measure of stability to Whitecap dividends and its capital development program.

Exploration and production for oil and gas is capital intensive. In addition to funds flow, the Company accesses the debt and equity markets as a source of new capital. In addition, Whitecap utilizes bank financing to support ongoing capital investments which exposes the Company to fluctuations in interest rates on its bank debt. Funds flow also fluctuates with changing commodity prices. Equity and debt capital are subject to market conditions, and availability and cost may increase or decrease from time to time.

Since the Trump administration took office in January 2025, the U.S. has implemented or threatened to implement, and in some cases has suspended, both broad-based and product specific tariffs on goods imported into the U.S., including from Canada. In response, governments around the world have implemented or threatened to implement retaliatory tariffs on goods imported from the U.S. (and, in some cases, Canada). The continuation of existing tariffs, the implementation of threatened tariffs, the reactivation of tariffs that are currently suspended, or the imposition of any new tariffs, taxes or import or export restrictions or prohibitions, could have a material adverse effect on the Canadian economy, the Canadian oil and natural gas industry and the Company. Furthermore, there is a risk that the tariffs imposed or threatened to be imposed by the U.S. on other countries, and retaliatory tariffs imposed or threatened to be imposed by other countries on the U.S., will trigger a broader global trade war which could have a material adverse effect on the Canadian, U.S. and global economies, and by extension the Canadian oil and natural gas industry and the Company, including by decreasing demand for (and the price of) oil and natural gas, disrupting supply chains, increasing costs, causing volatility in global financial markets, and limiting access to financing.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Environmental Risks

General Risks

Oil and gas exploration and production can involve environmental risks such as litigation, physical and regulatory risks. Physical risks include the pollution of the environment, climate change and destruction of natural habitat, as well as safety risks such as personal injury. Although the Company endeavours to identify the potential environmental impacts of its new projects in the planning stage and during operations, there can be no assurance that the Company will always be successful in this regard. Although the Company endeavours to conduct its operations in such a manner that mitigates impacts on the environment, its employees and consultants, and the general public, there can be no assurance that the Company will always be successful in this regard. Whitecap maintains current insurance coverage for comprehensive and general liability as well as limited pollution liability. The amount and terms of this insurance are reviewed on an ongoing basis and adjusted as necessary to reflect current corporate requirements, as well as industry standards and government regulations. Without such insurance, and if the Company becomes subject to environmental liabilities, the payment of such liabilities could reduce or eliminate its available funds or could exceed the funds the Company has available and result in financial distress.

Climate Change Risks

Our exploration and production facilities and other operations and activities emit greenhouse gases ("**GHG**") which may require us to comply with federal and/or provincial GHG emissions legislation. Climate change policy is evolving at regional, national and international levels, and political and economic events may significantly affect the scope and timing of climate change measures that are ultimately put in place to prevent climate change or mitigate its effects. The direct or indirect costs of compliance with GHG-related regulations may have a material adverse effect on our business, financial condition, results of operations and prospects. Some of our significant facilities may ultimately be subject to future regional, provincial and/or federal climate change regulations to manage GHG emissions. In addition, climate change has been linked to long-term shifts in climate patterns and extreme weather conditions both of which pose the risk of causing operational difficulties.

Additional information regarding risk factors including, but not limited to, business risks and environmental risks is available in our Annual Information Form for the year ended December 31, 2025, a copy of which may be accessed through the SEDAR+ website ([sedarplus.ca](https://www.sedarplus.ca)).

MANAGEMENT'S DISCUSSION AND ANALYSIS

Summary of Quarterly Results

	2026		2025				2024	
(\$ millions, except as noted)	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3

⁽¹⁾ Refer to Note 5(f)(ii) "Capital Management - Funds Flow" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026, and to the section entitled "Cash Flow from Operating Activities, Funds Flow and Free Funds Flow" contained within this MD&A for additional information on these capital management measures.

⁽²⁾ Includes current portion of long-term debt.

⁽³⁾ "Net Debt" is a capital management measure and is key to assessing the Company's liquidity. See Note 5(f)(i) "Capital Management – Net Debt and Total Capitalization" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026 for additional information on this capital management measure. The following table reconciles the Company's long-term debt to net debt:

	2026		2025				2024	
(\$ millions)	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
Long-term debt	2,067.5	2,856.8	3,066.7	2,931.7	2,887.8	826.2	1,023.8	1,095.6
Cash	(4.4)	(73.0)	(59.4)	-	-	-	(362.3)	-
Accounts receivable	(949.1)	(1,050.2)	(844.7)	(877.9)	(821.8)	(442.3)	(422.2)	(355.4)
Deposits and prepaid expenses	(77.5)	(65.4)	(86.5)	(93.1)	(67.0)	(19.8)	(22.4)	(32.9)
Non-current deposits	(86.6)	(86.6)	(86.6)	(86.6)	(86.6)	(86.6)	(86.6)	(82.9)
Accounts payable and accrued liabilities	1,493.0	1,594.0	1,330.7	1,369.8	1,302.8	673.7	767.1	701.6
Dividends payable	73.9	73.8	73.8	73.8	74.9	35.7	35.7	35.8
Net debt	2,516.8	3,249.4	3,394.0	3,317.7	3,290.1	986.9	933.1	1,361.8

⁽⁴⁾ "Crude oil and condensate" refers to light and medium crude oil, tight oil, condensate and pentane combined. "NGLs" refers to ethane, propane, and butane combined. "Natural gas" refers to conventional natural gas and shale gas combined. The comparative periods have been updated to reflect current period presentation. For further breakdown of crude oil and condensate, and natural gas production volumes, refer to the "Product Type Information" section of this MD&A.

⁽⁵⁾ Disclosure of production on a per boe basis in this MD&A consists of the constituent product types and their respective quantities disclosed in the "Product Type Information" section of this MD&A. Also refer to the "Boe Presentation" section of this MD&A.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Over the past eight quarters, fluctuations in production volumes and realized commodity prices have impacted the Company's petroleum and natural gas revenues and funds flow. Net income has fluctuated due to changes in funds flow and unrealized risk management gains and losses which fluctuate with the changes in forward benchmark commodity prices and exchange rates. Capital expenditures and production volumes have fluctuated over time as a result of the timing of acquisitions and dispositions and the impact of market conditions on the Company's development capital expenditures.

The following outlines the significant events over the past eight quarters:

In the first quarter of 2026, the Company amended its existing unsecured covenant-based credit facility. The amendment included a reduction of \$500.0 million to the revolving syndicated facility and an extension of the credit facility's maturity date to September 19, 2030.

In the fourth quarter of 2025, the Company repurchased 0.6 million common shares at an average price of \$10.58 per share.

In the third quarter of 2025, the Company repurchased 18.3 million common shares at an average price of \$9.92 per share.

In the second quarter of 2025, the Company closed the business combination with Veren pursuant to which the Company issued approximately 643.0 million common shares. Additionally, the Company closed the disposition of certain non-strategic assets for total cash consideration of \$263.7 million. The Company entered into a \$3 billion unsecured covenant-based credit facility which replaced its \$2 billion credit facility, and also issued \$300.0 million of investment grade senior notes with a maturity date of June 19, 2028. The Company repurchased 0.6 million common shares at an average price of \$8.73 per share in the second quarter of 2025.

In the fourth quarter of 2024, the Company issued \$400.0 million of investment grade senior notes with a maturity date of November 1, 2029. Additionally, the Company closed the previously announced disposition of a 50 percent working interest in the Company's Kaybob 15-07 complex for consideration of \$420.0 million. The Company repurchased 1.0 million common shares at an average price of \$11.01 per share in the fourth quarter of 2024.

In the third quarter of 2024, the Company entered into a \$2 billion unsecured covenant-based credit facility with a syndicate of banks which replaced the Company's secured credit and term loan facilities. The Company repurchased 11.5 million common shares at an average price of \$10.17 per share in the third quarter of 2024.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

Whitecap is required to comply with National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("**NI 52-109**"). NI 52-109 requires that Whitecap disclose in its interim MD&A any material weaknesses relating to design existing at the end of the period in Whitecap's internal control over financial reporting and/or any changes in Whitecap's internal control over financial reporting that occurred during the period that have materially affected, or are reasonably likely to materially affect, Whitecap's internal controls over financial reporting. Whitecap confirms that no material weaknesses or such changes were identified in Whitecap's internal controls over financial reporting at the end of or during the second quarter of 2026.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ADVISORIES

Boe Presentation

"Boe" means barrel of oil equivalent. All boe conversions in this MD&A are derived by converting gas to oil at the ratio of six thousand cubic feet ("Mcf") of natural gas to one barrel ("bbl") of oil. Boe may be misleading, particularly if used in isolation. A boe conversion rate of 1 bbl : 6 Mcf is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. Given that the value ratio of oil compared to natural gas based on currently prevailing prices is significantly different than the energy equivalency ratio of 1 bbl : 6 Mcf, utilizing a conversion ratio of 1 bbl : 6 Mcf may be misleading as an indication of value.

Supplementary Financial Measures

Average realized prices for crude oil and condensate, NGLs and natural gas are supplementary financial measures calculated by dividing each of these components of petroleum and natural gas revenues, disclosed in Note 14 "Revenue" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026 by their respective production volumes for the period.

Per boe disclosures for petroleum and natural gas revenues, tariffs, processing and other income and marketing revenues are supplementary financial measures calculated by dividing each of these components of petroleum and natural gas sales, disclosed in Note 14 "Revenue" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026, by the Company's total production volumes for the period.

Realized gain (loss) on commodity contracts per boe is a supplementary financial measure calculated by dividing realized gain (loss) on commodity contracts, disclosed in Note 5(e) "Financial Instruments and Risk Management – Market Risk" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026 by the Company's total production volumes for the period.

Per boe disclosures for petroleum and natural gas sales, royalties, operating expenses, transportation expenses, marketing expenses, G&A expenses, stock-based compensation expenses, interest and financing expenses, and depletion, depreciation and amortization are supplementary financial measures that are calculated by dividing each of these respective GAAP measures by the Company's total production volumes for the period.

Royalties as a percentage of petroleum and natural gas revenues is a supplementary financial measure calculated by dividing royalties by petroleum and natural gas revenues, disclosed in Note 14 "Revenue" to the Company's unaudited interim consolidated financial statements for the three and six months ended June 30, 2026.

Product Type Information

This MD&A includes references to crude oil and condensate, NGLs, natural gas and total average daily production.

NI 51-101 includes condensate and pentane within the NGLs product type. The Company has disclosed condensate and pentane as combined with crude oil and separately from other NGLs in this MD&A since the price of condensate and pentane as compared to other NGLs is currently significantly higher and the Company believes that this combined crude oil, condensate and pentane presentation provides a more accurate description of its operations and results therefrom. Crude oil and condensate therefore refers to light, medium and tight oil, condensate, and pentane combined. NGLs refers to ethane, propane, and butane combined. Natural gas refers to conventional natural gas and shale gas combined.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Company's aggregate average production for the past eight quarters and the references to "crude oil and condensate", "NGLs", and "natural gas" reported in this MD&A consist of the following product types, as defined in NI 51-101 (except as noted above) and using a conversion ratio of 1 bbl : 6 Mcf where applicable:

	2026		2025				2024	
	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
Light and medium oil (bbls/d) ⁽¹⁾⁽²⁾	101,669	101,941	98,679	99,590	98,842	74,814	75,170	75,072
Tight oil (bbls/d) ⁽¹⁾⁽²⁾	99,056	99,246	94,173	90,096	60,828	21,823	22,243	20,010
Crude oil and condensate (bbls/d) ⁽¹⁾⁽²⁾	200,725	201,187	192,852	189,686	159,670	96,637	97,413	95,082
NGLs (bbls/d) ⁽²⁾⁽³⁾	38,358	40,920	39,567	37,733	27,499	19,295	18,349	17,831
Shale gas (Mcf/d)	713,281	702,066	701,748	692,046	453,744	225,322	218,860	215,309
Conventional natural gas (Mcf/d)	185,583	193,788	181,376	191,178	179,767	153,393	146,949	147,023
Natural gas (Mcf/d)	898,864	895,854	883,124	883,224	633,511	378,715	365,809	362,332
Total (boe/d)	388,894	391,416	379,606	374,623	292,754	179,051	176,730	173,302

⁽¹⁾ Includes condensate and pentane.

⁽²⁾ The comparative periods have been updated to reflect current period presentation.

⁽³⁾ Includes ethane, propane, and butane combined.

The Company's aggregate average production for the six months ended June 30, 2026 and 2025 and the references to "crude oil and condensate", "NGLs", and "natural gas" reported in this MD&A consist of the following product types, as defined in NI 51-101 (except as noted above) and using a conversion ratio of 1 bbl : 6 Mcf where applicable:

	Six months ended June 30,	
	2026	2025
Light and medium oil (bbls/d) ⁽¹⁾⁽²⁾	101,804	86,895
Tight oil (bbls/d) ⁽¹⁾⁽²⁾	99,151	41,433
Crude oil and condensate (bbls/d) ⁽¹⁾⁽²⁾	200,955	128,328
NGLs (bbls/d) ⁽²⁾⁽³⁾	39,632	23,420
Shale gas (Mcf/d)	707,704	340,164
Conventional natural gas (Mcf/d)	189,663	166,653
Natural gas (Mcf/d)	897,367	506,817
Total (boe/d)	390,148	236,218

⁽¹⁾ Includes condensate and pentane.

⁽²⁾ The comparative periods have been updated to reflect current period presentation.

⁽³⁾ Includes ethane, propane, and butane combined.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Forward-Looking Information and Statements

Certain statements contained in this MD&A constitute forward-looking statements and are based on Whitecap's beliefs and assumptions based on information available at the time the assumptions were made. By its nature, such forward-looking information involves known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Company believes the expectations reflected in those forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking statements should not be unduly relied upon.

This MD&A contains certain forward-looking information and statements within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "estimate", "objective", "ongoing", "may", "will", "project", "believe", "measure", "stability", "depends", "could", "sustainability" and similar expressions are intended to identify forward-looking information or statements. In particular, but without limiting the foregoing, this MD&A contains forward-looking information and statements pertaining to the following: Whitecap's focus and strategy; Whitecap's ongoing successful drilling program and the anticipated benefits in connection therewith; Whitecap's ongoing risk management program and the benefits to be derived therefrom, including Whitecap's intention to reduce the volatility of cash flows in order to fund capital expenditures and pay cash dividends to shareholders; the factors that may affect Whitecap's marketing activities; the anticipated forfeiture rate under our Award Incentive Plan; our intention to vigorously defend our tax filing position relating to CRA and ATRA reassessments and our confidence in the appropriateness of our tax filing position; that the Board of Directors reviews our dividend payment on a monthly basis; our estimate of the amount of our future decommissioning liabilities for future abandonment and reclamation of our properties; our intention to review our future decommissioning liabilities quarterly and adjust such amounts; the anticipated effect of implemented or expected tariffs, taxes or import or export restrictions or prohibitions, including that such could have a material adverse effect on the Canadian economy, the Canadian oil and natural gas industry and the Company, including by decreasing global demand for (and the price of) oil and natural gas, disrupting supply chains, increasing costs, causing volatility in global financial markets, and limiting access to financing; the sources and amounts of our future liquidity and financial capacity; the anticipated delivery of natural gas pursuant to our long-term agreement to deliver 50,000 MMBtu/d of natural gas and the anticipated benefits in connection therewith; our future hedging activities; the belief that available credit facilities combined with anticipated funds flow will be sufficient to satisfy Whitecap's 2026 development capital program and dividend payments for the remainder of the 2026 fiscal year; anticipated effects of environmental liabilities on the Company; that some of our significant facilities may be subject to future regional, provincial and/or federal climate change regulations to manage GHG Emissions; anticipated effects of long-term shifts in climate patterns and extreme weather conditions on the Company; and the actions Whitecap expects to take to mitigate the business, environmental and other risks that it faces.

The forward-looking information and statements contained in this MD&A reflect several material factors and expectations and assumptions of Whitecap including, without limitation: the duration and impact of tariffs that are currently in effect on goods exported from or imported into Canada, and that other than the tariffs that are currently in effect, neither the U.S. nor Canada (i) increases the rate or scope of such tariffs, reenacts tariffs that are currently suspended, or imposes new tariffs, on the import of goods from one country to the other, including on oil and natural gas, and/or (ii) imposes any other form of tax, restriction or prohibition on the import or export of products from one country to the other, including on oil and natural gas; the availability and amount of the non-capital losses available to us; expectations and assumptions concerning applicable tax laws and the precedential value of historical Canadian tax case law; that Whitecap will continue to conduct its operations in a manner consistent with past operations; the general continuance or improvement in current industry conditions; the continuance of existing (and in certain circumstances, the implementation of proposed) tax, royalty and regulatory regimes; the accuracy of the estimates of Whitecap's reserve volumes; the impact of increasing competition; the general stability of the economic and political environment in which Whitecap operates; the ability of Whitecap to obtain qualified staff, equipment supplies and services in a timely and cost efficient manner; the ability of Whitecap to efficiently integrate assets and employees acquired through acquisitions; drilling results; the ability of the operator of the projects which the Company has an interest in to operate in a safe, efficient and effective manner; field production and decline rates; future operating costs; the ability to replace and expand oil and natural gas reserves through acquisition, development or exploration; the timing and costs of pipeline, storage and facility construction and expansion; the ability of the Company to secure adequate product transportation; future petroleum and natural gas prices; currency, exchange, inflation and interest rates; the continued availability of adequate debt and equity financing and funds flow to fund Whitecap's planned expenditures, dividends, and share repurchases;

MANAGEMENT'S DISCUSSION AND ANALYSIS

the ability of OPEC+ nations and other major producers of crude oil to adjust production and thereby manage world crude oil prices; the impact (and duration) of the ongoing military actions between Russia and Ukraine and related sanctions, and of the conflicts in the Middle East, on crude oil, NGLs, and natural gas prices; and the ability to maintain dividend payments at current levels. Whitecap believes the material factors, expectations and assumptions reflected in the forward-looking information and statements are reasonable, but no assurance can be given that these factors, expectations and assumptions will prove to be correct.

The forward-looking information and statements included in this MD&A are not guarantees of future performance and should not be unduly relied upon. Such information and statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking information or statements including, without limitation: the risk that (i) the tariffs that are currently in effect on goods exported from or imported into Canada continue in effect for an extended period of time, the tariffs that have been threatened are implemented, that tariffs that are currently suspended are reactivated, the rate or scope of tariffs are increased, or new tariffs are imposed, including on oil and natural gas, (ii) the U.S. and/or Canada imposes any other form of tax, restriction or prohibition on the import or export of products from one country to the other, including on oil and natural gas, and (iii) the tariffs imposed or threatened to be imposed by the U.S. on other countries and retaliatory tariffs imposed or threatened to be imposed by other countries on the U.S. will trigger a broader global trade war which could have a material adverse effect on the Canadian, U.S. and global economies, and by extension the Canadian oil and natural gas industry and the Company, including by decreasing demand for (and the price of) oil and natural gas, disrupting supply chains, increasing costs, causing volatility in the global financial markets, and limiting access to financing; risks associated with the refusal of the U.S. to renew the Canada-United States-Mexico Agreement ("**CUSMA**") by the July 1, 2026 deadline, including the risk that the U.S. ultimately withdraws from CUSMA, which could result in a significant increase in trade barriers, which could in turn have a material adverse effect on the Canadian and U.S. economies, and by extension the Canadian oil and natural gas industry and the Company; imprecision and uncertainty in estimates of tax pools, tax shelters and tax deductions available to us; the interpretation of tax legislation and regulations applicable to us; the risk that the CRA's and the ATRA's reassessments described herein are successful and that this outcome has a negative effect on the availability or quantum of our non-capital losses; the risk that the tax impact to us, in the event the non-capital losses are not available, is materially different than those currently contemplated; that the reassessment of our tax filings and the continuation or timing of such process is outside of our control; litigation risk associated with the reassessments of our tax filings; changes to tax legislation and administrative policies; changes in commodity prices; changes in the demand for or supply of Whitecap's products; the impact from any pandemic or public health event; unanticipated operating results or production declines; changes in tax or environmental laws, royalty rates or other regulatory matters; changes in Whitecap's development plans or by third party operators of Whitecap's properties; competition from other producers; inability to retain drilling rigs and other services; failure to realize the anticipated benefits of acquisitions or dispositions; incorrect assessment of the value of acquisitions; delays resulting from or inability to obtain required regulatory approvals; increased debt levels or debt service requirements; increased interest rates; inaccurate estimation of Whitecap's oil and gas reserve volumes; limited, unfavourable or a lack of access to capital markets; increased costs, whether due to high inflation rates, supply chain disruptions or other factors; the risk that weather events such as wildfires, flooding, droughts or extreme hot or cold temperatures forces us to shut-in production or otherwise adversely affects our operations; availability of qualified staff, equipment supply and services; a lack of adequate insurance coverage; the impact of competitors; and certain other risks detailed from time to time in Whitecap's public disclosure documents (including, without limitation, those risks identified in this MD&A) which may be accessed through the SEDAR+ website ([sedarplus.ca](https://www.sedarplus.ca)).

The forward-looking information and statements contained in this MD&A speak only as of the date of this MD&A, and Whitecap does not assume any obligation to publicly update or revise them to reflect new events or circumstances, except as may be required pursuant to applicable laws.
